Case No. 2:24-cv-10683

I'm writing the court once again. Because this facility is doing things to make me miss all my dead lines. I have wrote the Warden, I have done grievances and still nothing is being done & have been taking off the law library call-out for 3 weeks now. E. Schier Schmidt continues to take me of the law library callout. My father passed in April and I had to talk with family so I went over to the law library but I left early and now I've been off since then. I have wrote her kits explaining that I need copies and I have a dead line. She approved me for extra time in the law library for a dead line on my appeal and she made me miss that dead line as well on May 1, 2025. I asking this court to please contact this prison so that they can stop picking with me. And doing things on purpose. They want give me any copies or law library time to make me miss my dead line please help me if you can please.
